A History of Peace

In 1928, forward-thinking individuals had a vision of a formal garden on the U.S. and Canada border where peace could be celebrated. In 1932, more than 50,000 people gathered on the prairie to dedicate this sacred space. For 90 years, the Peace Garden has been a symbol of peace and cooperation among nations. It's a living monument serving as an example to the world.

World Class Conservatory

An unfortified international border is unusual. Just as unexpected is the collection at The Conservatory, home to 5,000 unique and rare species of cacti and succulents from every corner of the world. Our expanded Conservatory will open in late 2023, with limited access this summer. These plants display an everchanging variety of texture and colors, and show their floral blooms in February, peaking in May and June. This collection was gifted to the Peace Garden in 2009 by Don Vitko of Minot, ND.

The Conservatory serves as a library for protected plants that could someday be extinct. The work of The Conservatory demonstrates how understanding of political issues around the world impacts peace and natural ecosystems.

A Year-Round Destination

Hiking and biking trails connect acres of pristine prairie and wilderness, sprinkled with picturesque lakes and ponds. Take a break at one of our picnic grounds or stay the weekend in our summer campground. In winter, bring your skis and snowshoes and stay in one of our winter cabins.

Iconic Formal Garden

With more than 80,000 flowering annuals and perennials, the Formal Garden is home to a variety of installations including a pollinator garden, terraces, fountains, and sculptures that delight visitors and make our Formal Garden a favorite destination. Don't miss the iconic Floral Clock, Sunken Garden, 9/11 Memorial Site, and Floral Flags.

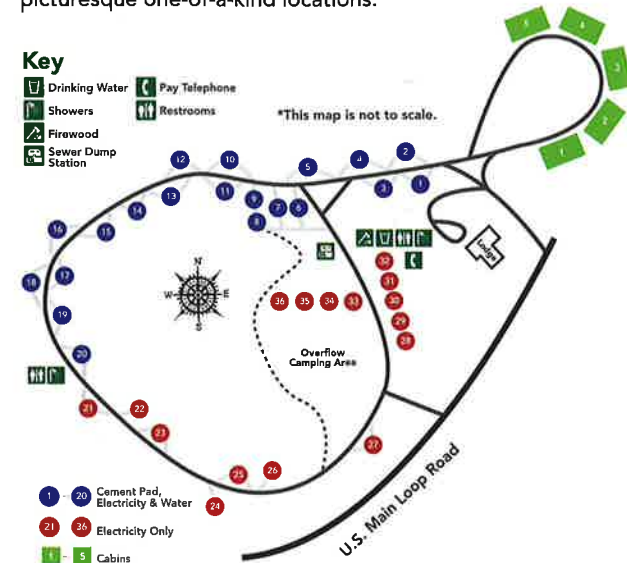

Children's Nature Play Park

The Children's Nature Play Park is family-friendly destination. Distinct animal habitat play zones are nestled into an existing forest grove for fun and imaginative play while teaching about the animals, plants, history and Indigenous cultures of the Turtle Mountains through a storytelling approach. Children will enjoy the climbing nets in the turtle area; bridges, dams and lodges in the beaver zone; and a wolf-themed gathering circle with a fire ring at its center.

Camping, Cabins and Events

Campgrounds, cabins, picnic areas, rustic and formal spaces, along with meeting rooms at the Peace Garden offer a variety of rental spaces perfect for weddings, anniversaries, family reunions, and special events. Host your function at the Peace Garden and take advantage of our on-site services and picturesque one-of-a-kind locations.

Educational Programming

Cultural venues located within the Peace Garden include the International Music Camp and the North American Game Warden Museum. Special recreation events, family events and education programming are offered throughout the summer and fall that celebrate the rich history and uniqueness of the area, and the significance of the flora and fauna that was part of the Peace Garden's original purpose.

Centennial Vision 1932 – 2032

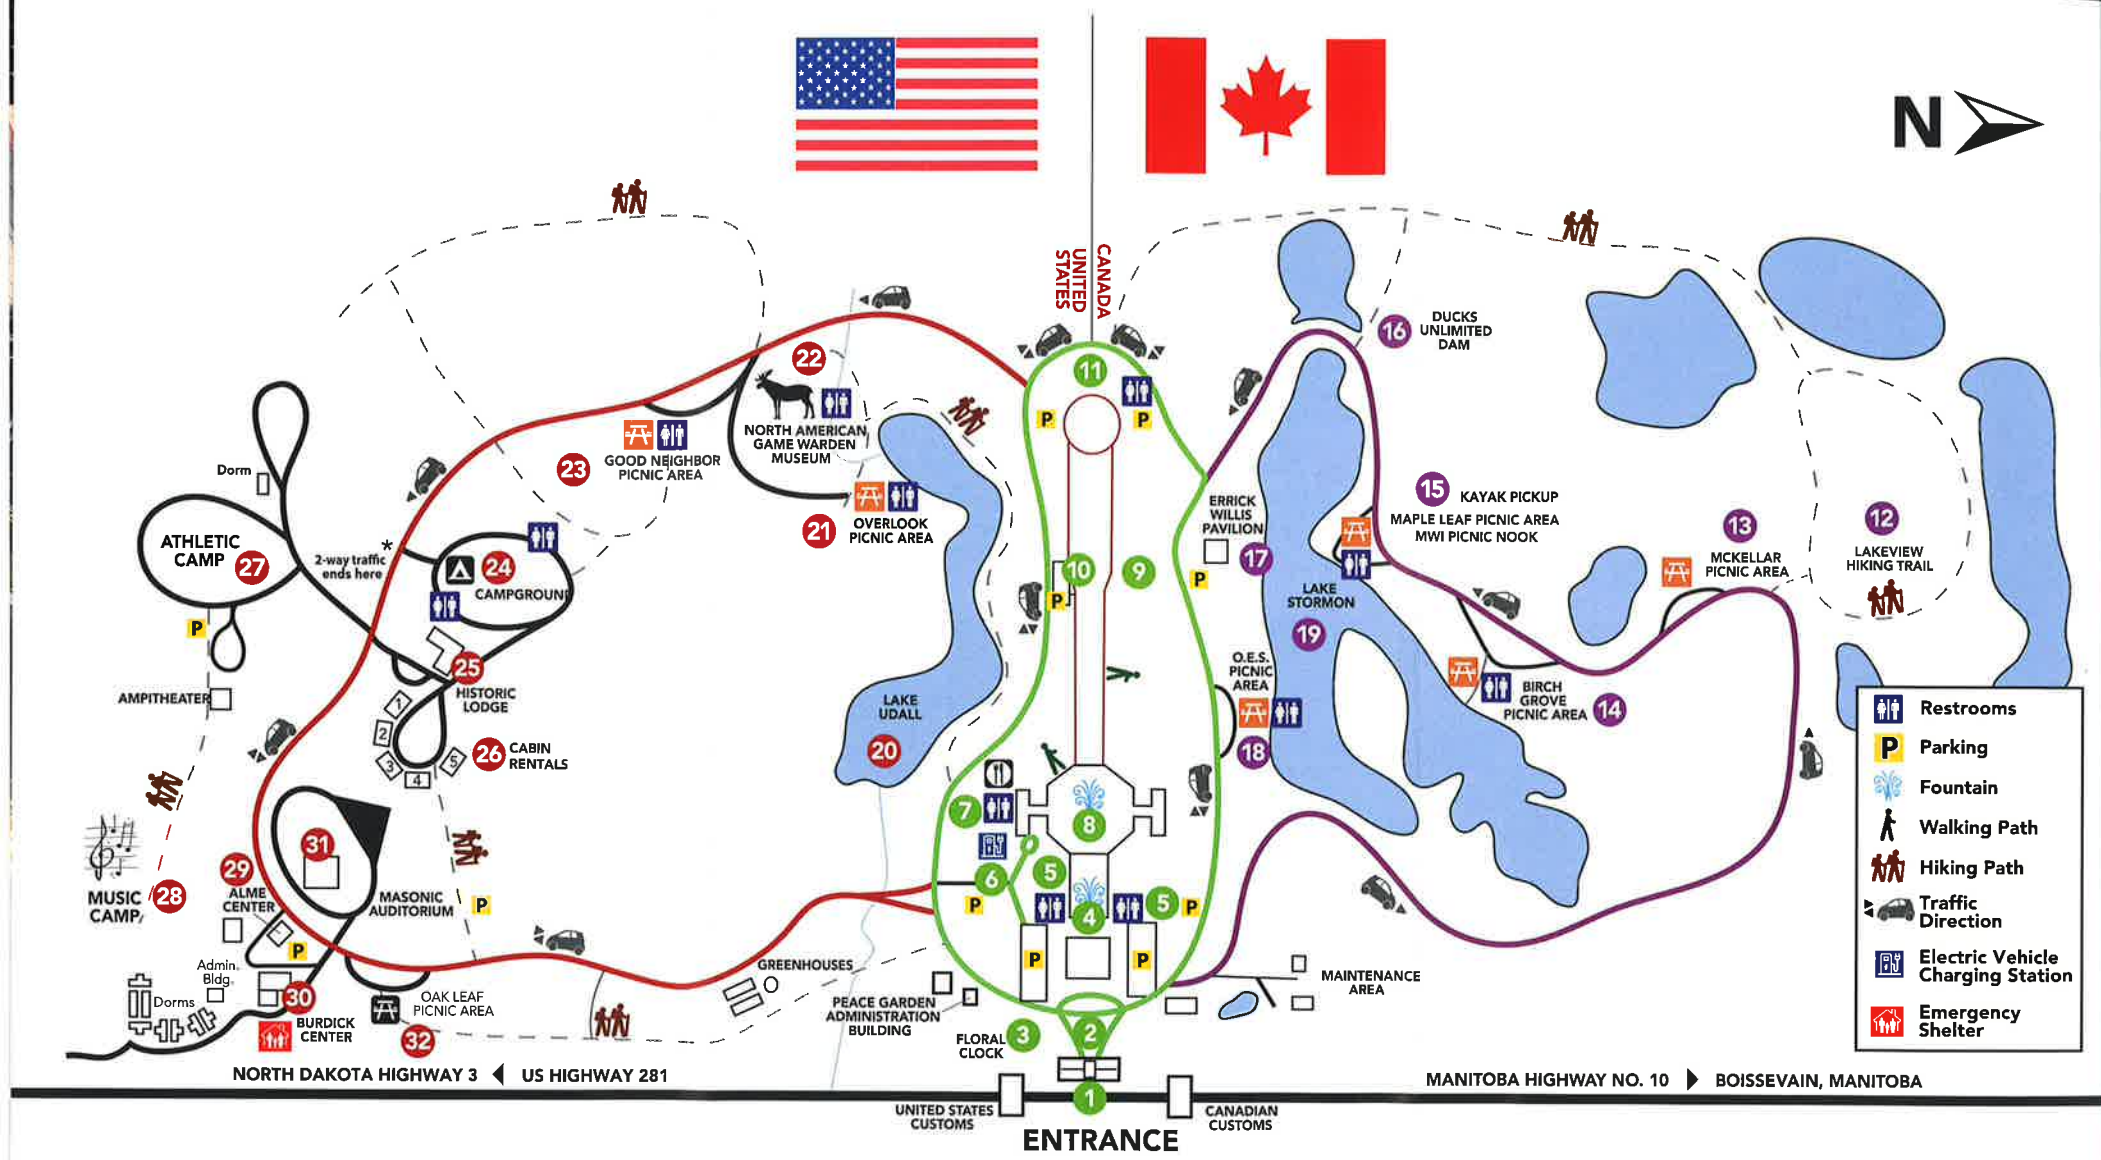

The International Peace Garden is planning for a sustainable future for the 100 years and beyond with the expansion of the Conservatory – the Garden’s activity hub – to allow for enhanced exhibits and programming. Check our website for the Conservatory re-opening in late 2033.
