

2025 IMC Camper Health Note

Hi IMC Camper Families!

Camp Directors Tim and Christine here! We are excited to welcome everyone back up to the beautiful International Peace Garden this summer and we can't wait to hear all of the musical and artistic growth of your campers. Measles is making an unfriendly re-appearance in both Manitoba and North Dakota, so we figured we would just remind everyone about a few important pieces of information to help us keep campers healthy this summer!

1. If your camper is fully vaccinated against measles (MMR), you can ignore this note completely.
2. If your camper is not vaccinated against measles and they are exposed in their home community, they should quarantine for 21 days, including not coming to IMC during that timeframe. We can talk on the phone with details, rescheduling, refunds, etc.
3. If there is a camper who comes down with measles while at IMC, all campers not fully vaccinated against measles that week will immediately quarantine and parents will be called to pick them up ASAP.

Now that we've talked about it, hopefully we won't need to take any action and it will be a totally smooth summer. All of our medical decisions are made by our full-time Camp Nurse and the IMC Camp Directors with the guidance of our state public health agency.

See you soon - Yay summer!!!
Tim and Christine
